18 Years of Experience

## PROFESSIONAL SUMMARY

I am a self-learner person who has been working in the IT world since 2008 independently, but since 2010 in a dependent form.

During my years of experience, I have performed functions as DevOps, IT Architect, Infrastructure Administrator and Software Developer. I currently have 13 international IT certifications.

You can review my availability for any meeting in my [Calendly](#).

## EXPERIENCE

**NOVEMBER, 2025 - CURRENT**

**TechnologyBots**

### DEVOPS ENGINEER

Working as an Independent Contractor, fully remote. The project focuses on the company's own internal infrastructure and applications. TechnologyBots is located in Albuquerque, New Mexico, USA. In this period I have interacted with Azure, Terraform, TypeScript, PHP, Java, Python, AWS (ECS, S3, IAM, VPC, Security Groups, Load Balancers, Route 53), and Docker. Communication is conducted entirely in English within a multicultural team, primarily composed of professionals from India and the United States.

**APRIL, 2024 - NOVEMBER, 2025**

**INFOSYS - NextEra Energy**

### DEVOPS ENGINEER

The project provides services to NextEra Energy, located in Florida, USA. I was part of a 4-member DevOps team responsible for the Phoenix application (Java), managing deployments across 4 environments: Development, QA, Production, and Disaster Recovery. Deployments were coordinated after business hours and fully documented with evidence. I was also responsible for ensuring the Disaster Recovery environment and load balancers worked properly during disaster events, and I created backup scripts for databases stored in AWS S3 buckets. In this period I have interacted with GitHub Actions, AWS (ECS, S3, IAM, CloudFormation, CDK, CloudWatch, and networking services), Docker, ServiceNow, Python, TypeScript, and Bash Scripting. All communication was conducted entirely in English within a highly multicultural team, primarily composed of professionals from India and the United States.
