

# Jimmy Baldeon

Technical Lead focused on delivery, architecture, automation and production readiness

✉ jimmy.baldeond@gmail.com ☎ +51 965 732 308 🌐 [www.jimmyfreelancer.com](http://www.jimmyfreelancer.com)

18 Years of Experience

## PROFESSIONAL SUMMARY

Technical Lead profile with experience coordinating delivery across infrastructure, backend, cloud and DevOps responsibilities in enterprise projects.

I have led or supported production deployments, disaster recovery readiness, technical documentation, environment coordination and operational evidence for regulated environments.

My background combines hands-on engineering with practical architecture, helping teams connect business needs, implementation details and reliable delivery. [Calendly](#).

## EXPERIENCE

**NOVEMBER, 2025 - CURRENT**

**TechnologyBots**

**DEVOPS / TECHNICAL LEAD**

Independent Contractor coordinating technical work across internal applications and infrastructure. The role requires hands-on decisions across Azure, Terraform, AWS, Docker and application stacks such as TypeScript, PHP, Java and Python, while communicating fully in English with a multicultural team.

**APRIL, 2024 - NOVEMBER, 2025**

**INFOSYS - NextEra Energy**

**DEVOPS ENGINEER / RELEASE COORDINATION**

Worked in a 4-person DevOps team responsible for the Phoenix Java application, coordinating releases across Development, QA, Production and Disaster Recovery. I handled deployment evidence, after-hours release execution, DR readiness, load balancer validation and backup automation, connecting technical execution with operational governance.

**APRIL, 2021 - APRIL, 2024**

**DEVSU LLC - Banco Pichincha**

**TECHNICAL CONSULTANT**

Supported Banco Pichincha Ecuador as an Independent Contractor, contributing to delivery decisions across Azure DevOps, Terraform, AKS, Docker, ApiGee, SQL Server, Dynatrace, Istio, TypeScript and Java. The work required coordination between platform, application, API and observability concerns.

**OCTOBER, 2019 - JANUARY, 2020**

**CANVIA - Sunat**

**TECHNICAL CONSULTANT**

Supported SUNAT services using Kubernetes, Docker, Java microservices, MongoDB and Firebase, contributing to technical delivery in a containerized application environment.

**APRIL, 2018 - OCTOBER, 2019**

**EVERIS - Banco Sabadell**

**TECHNICAL CONSULTANT**

Supported Banco Sabadell services across Jenkins, CI/CD, Azure-hosted Windows Server, GitBucket, GitLab, SQL Server, GlassFish, Angular and Java, bridging application delivery, environments and release automation.

**FEBRUARY, 2020 - APRIL, 2021**

**QSYSTEM - Auna**

**TECHNICAL CONSULTANT**

Supported Auna services involving AWS serverless components, API management, Jenkins, Docker, GitLab, monitoring, Oracle DB, TypeScript and Java. The work required coordinating backend, middleware, cloud automation and operational visibility.

**JULY, 2016 - JULY, 2017**

**SOA PROFESIONALS PERÚ - Entel Perú**

**SERVERS ADMIN LEAD**

Led server administration responsibilities for Entel Peru across Unix, Linux, Solaris, databases, JBoss on AWS, WebLogic, Windows Server, Control-M, F5 and monitoring platforms, supporting production continuity and cross-platform operations.

**JUNE, 2015 - JULY, 2016**

**HACOM S.A.C.**

**TECHNICAL LEAD OF IT AREA**

Led the IT area and made technical decisions across infrastructure, networking, virtualization, databases, GitLab, monitoring, HAProxy, GPS geolocation, Python and Java, balancing operations, internal delivery and platform reliability.

**JANUARY, 2013 - JUNE, 2015**

**TEAMSOFT - Nextel Perú**

**TECHNICAL CONSULTANT**

Supported Nextel Peru / Entel enterprise platforms with Oracle Database, WebCenter, WebLogic, Oracle OSB, Unix, Linux, SVN and Java, contributing to middleware stability and application support.

**AUGUST, 2012 - JANUARY, 2013**

**BIZ PARTNER - Aceros Arequipa**

**TECHNICAL CONSULTANT**

Supported Corporacion Aceros Arequipa systems with Oracle Database, Java and Subversion SVN, providing enterprise application support under controlled delivery practices.

**JULY, 2011 - JULY, 2012**

**INTELYGENZ**

**TECHNICAL CONSULTANT**

Supported several Spanish clients with Java, SQL Server, Linux, VMware and SVN, adapting to different client environments and technical constraints.

**JANUARY, 2010 - JUNE, 2011**

**CHAIN SERVICE TI - Hochschild Mining**

**TECHNICAL CONSULTANT**

Supported multiple Peruvian clients with Java, Tomcat, Linux, MySQL, PostgreSQL and SAP-related environments, building early experience across application operations and client-facing support.
